

**Project Coordinator, Sint Maarten
Tanya Power-Stevens**

In 2010, Tanya sailed into Sint Maarten with her family, and decided to stay. Living for years on a sailboat, close to nature and reliant on the weather, increased her respect and appreciation of the **environment, so it was only natural that Tanya should** choose EPIC to partner with. She has written and managed numerous grants, organized and managed fundraising events, and handled a wide range of administrative tasks for EPIC. Nowadays, you will most likely meet Tanya leading EPIC hikes, coastal cleanups, and interactive **educational sessions with children during summer camps.**
